Racoon Miljöfilter AB

A pioneer in air filter technology

Tailored to your needs

At Racoon Miljöfilter AB we always strive to deliver a tailor made product that fits your every need. And when it comes to quality - we never compromise.

1. Racoon Miljöfilter AB

A pioneer in air filter technology

With our passion and technological expertise within air purification, we manufacture and develop filter applications suitable for your specific needs.

Today we focus our manufacturing to vehicles and machines, but our filters are used in a wide variety of fields.

For example:

- The mining industry.
- Waste and recycling industries.
- Chemical and technological industries .
- Military industry.

Manufacturing and development - we do it inhouse

Our headquarters and factory are located in the small town called Robertsfors in the northern part of Sweden.

Here is where all of our sales, product development and production take place.

At Racoon Miljöfilter AB we always strive to deliver a tailor made product that fits your every need. And when it comes to quality - we never compromise.
